The Human Resource Manager

Nawiri DT Sacco

Dear Sir/Madam

RE: APPLICATION FOR DATABASE ADMINISTRATOR - NSSL/DBA/2025

I wish to apply for the above-named post recently advertised in your website. I hold Bachelor Degree in Computer Science, with over 7 years of experience in Software Development and Database Management.

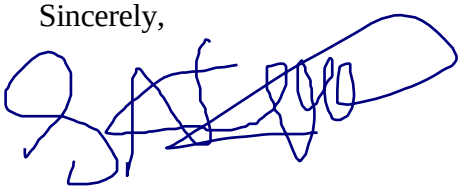
With my skill-set and competencies, I am able to develop information systems, web apps and mobile apps using current programming technologies such as Java Spring boot/Go for RESTful APIs, Angular (Web App), Ionic/Flutter (Mobile App), and Electron (Desktop App), with databases such as MySQL, PostgreSQL and Mongo Db.

I am currently working as a Senior Full Stack Software Developer at AA Kenya where I am developing Core System for the company which we have adopted Micro services architecture due to huge number of service offered by the AA Kenya, hence a complex database. Prior to AAKenya, I was working as a software at Consolata Hospital Mathari. Where I was responsible for development of Hospital Management Information System (HMIS) and Database management.

I started my career at Ekas Technologies LTD working as software developer for the company. At the company I was able to program Ekas Speed Governor's data transmission systems to meet NTSA standards. I also developed Ekas Fleets Tracking App and Ekasline E-Commerce.

I will be most grateful if my application is considered favorably.

Sincerely,



Samuel Ndegwa Mwaniki
