The Human Resource Manager,

Safaricom

Dear Sir/Madam

RE: APPLICATION FOR CBS PRODUCT DEVELOPMENT ENGINEER

I wish to apply for the above-named post recently advertised. I hold Bachelor Degree in Computer Science, with over 6 years of experience in Software development.

With my skill-set and competencies, I am able to develop information systems, websites and mobile applications using current programing technologies such as Angular Js (Web Frontend), Ionic (Mobile Frontend) , Electron(Desktop Frontend) and Java Spring boot/Python/Go/PHP for Backend APIs with databases such as MySQL and Mongo Db.

I am able to set up, Install, configure, monitor, troubleshoot and maintain servers mainly running on Linux environment.

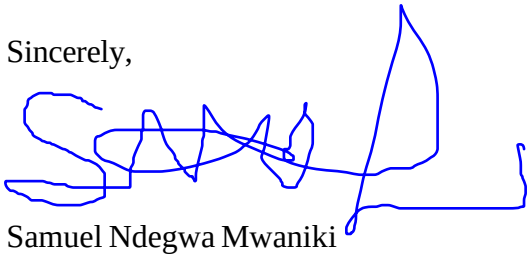

I am currently working at Consolata Hospital Mathari as ICT Officer for Consolata Medical College. I am responsible for development and management of ICT infrastructure which include Information Management Systems, Website, Database Admin and Networks Admin. I have successfully delivered an Online Courses Application System for the Hospital's Medical College. I also manage Hospital Database System.

I started my career at Ekas Technologies LTD working as software developer for the company. At the company I was able to program Ekas Speed governor's data transmission systems to meet NTSA standards. I also developed Ekas Fleets Tracking App.

I have attached my CV highlighting my academic and professional skills.

I will be most grateful if my application is considered favorably.

Sincerely,

Samuel Ndegwa Mwaniki
