# Terms & Conditions

The examiners take every care & precaution during inspections but the AA cannot accept responsibility for claims arising as a result of latent defects or matters of opinion

The AA reserves the right to decline to examine or to report on any vehicle not of standard production or one which has not been in regular road use.

The examination to which this report refers is external only and does not involve dismantling or disturbing any structure, assembly, component or internal mechanism.

Only limited road test is undertaken.

Vehicles over 5 years and those that have been subjected to abnormal use may have serious defects which may not be detected by external examination. The AA will not be held responsible for liability arising out of this.

No indication can be given of the availability of the spare parts for the particular make or model of a vehicle.

Parts that are excessively contaminated by oil or dirt may not be properly examined.

The assessed value given after a brief examination and road test is consistent with the age and condition of the said vehicle. However, it must be emphasized that it bears no relationship with any agreement between buyer and seller which is entirely dependent on willingness of the two parties to a greater or lesser degree.

Where it is stated in the inspection report that some information was supplied by AA a third party, the AA Kenya will not be held responsible for the reliability of the information, if found to be incorrect.

Re-examination after repairs will be carried out at a fee.

The assessed value is based on the date of first registration and the odometer reading being genuine.
